**November 2024**

**New Buses 310 and 309 routes**

Good news for our area, Stagecoach South West have invested over £1.5 million in 12 brand new single deck buses for its North Devon fleet.

The new Optare 'Solo' buses have replaced older vehicles and operate on various routes out of Barnstaple including the newly awarded Lynton, Lynmouth and Woolacombe services.

The 309 / 310 services to Lynton and Lynmouth will offer additional connections including earlier and later journey options. Service 310 will operate hourly from 0600 to 2045, while Service 309 will provides two daily trips via Shirwell.

Feedback from residents has been completely positive, even this morning I had a message from a resident saying 'we've entered the 21<sup>st</sup> century with these buses!'

**Concessionary Bus Passes**

*If anyone want s to apply for a concessionary bus pass if you are over the statutory retirement age in addition bus passes are also available to people with certain disabilities. If you are applying for a bus pass based on disability (and you are not eligible for a pass based on your age) the link is; [Apply for a bus pass - Travel Devon](#)*

*To complete a paper application, you can [download a bus pass application form here](#). To have the form posted to you please call [01392 383688](tel:01392383688) or [01271 383688](tel:01271383688) or email at [nationalbuspass@devon.gov.uk](mailto:nationalbuspass@devon.gov.uk).*

Unfortunately, in the budget the bus fare cap was raised from £2 to £3 in December, this is very disappointing as I admit I was expecting £2.50. rural residents like ourselves are disproportionately affected by the rise as it is a cap and many urban areas the fare would be below £3 anyway.

To plan your journey the interactive bus map is very helpful;

## Highway Repairs

A3123 between BerryDown and Lynton Cross the new drainage scheme is now installed at Stapleton Farm.

**More repairs will be coming in the area, we can expect to see a lot of patching and resurfacing as well as more drainage works in the coming months. Hopefully this winter will not be as wet as winter 23-24.**

Across Devon since April, more than 18,000 square metres of road have been patched in over 350 locations across the county. These repairs have targeted sections of road which are deteriorating, patching extensive areas before potholes or safety defects form.

Dragon patchers have been used on double-shifts to complete more than 5,250 patches, covering over 33,000 square metres.

A new carbon saving road repair material, called Elastomac which is what was used on the A399, has been used to repair around 7,000 square metres of Devon's roads following successful trials on small to medium size patches.

Elastomac is a surfacing material which is partly made of recycled road planings and recycled tyres. It reduces waste and carbon emissions while also being quicker to cure than traditional material used in pothole repairs, reducing traffic disruption. *This is the system booked to be used on the A 399.*

Around £2 million of the funding is being invested in drainage improvements, while over 10km of double white lines have also been refreshed along with road markings at 175 roundabouts and 197 zebra crossings.

This year's wet spring accounted for levels of potholes recorded between April and July being 54% higher than the same time last year.

To tackle potholes, we also invested an extra £2 million in highway revenue funding this year, on top of the £10 million capital funding. This has helped contribute to the repair of more than 47,500 potholes across the county so far this year.

The £12 million injection from Devon County Council is in addition to the £59.486 million of funding Devon has received from the Department for Transport (DfT) for its highway maintenance programme this year.

The annual major resurfacing programme for the A-road network in the county is also currently underway.

## **Household support funding available until the end of March 2025**

To help households that are struggling with the costs of energy, food, water and other essentials.

Devon County Council will receive a share of the Household Support Fund, as we have each year since 2021. This allocation, like previous ones, is a little over £5 million.

The council are now agreeing how we will distribute the funding, working closely with Devon's eight District, City and Borough councils and voluntary and community partners.

Citizens Advice Devon will be one of the recipients to receive Household Support Funding, so that they can continue to support people who are struggling to meet their energy needs. Support comes in the shape of fuel voucher payments, and longer-term relief of fuel poverty through initiatives that help homes become more energy-efficient, and that help people stay warm at home – heated throw, body warmer or rechargeable hot water bottle, for example.

This latest round of Household Support Fund allows DCC to continue to provide Free School Meal holiday vouchers to families whose children are eligible for benefit-related free school meals during term time.

## **The next Local Transport Plan is currently out for consultation**

The full draft document of the plan is available to view on the Have Your Say webpage. The deadline for feedback to the online questionnaire is 11:59pm on Saturday 30 November.

The plan's vision is for well-integrated and accessible transport to facilitate sustainable growth, support net zero carbon targets by 2050 at the latest, improve travel choice and benefit people's health and wellbeing.

A number of priorities are proposed across all areas of Devon and Torbay, including enhancement of bus services and supporting transition to lower emission and zero emission buses, providing bus priority on key routes, improving the integration of rail and bus services, establishing a comprehensive network of electric vehicle charging facilities, and expanding pedestrian and cycle networks. All of the proposals are subject to securing funding from a range of sources including Local Transport Plan, Government grants and developer contributions .

It is really helpful to hear what residents think about transport and how we get around and in and out of the County, if you have some time please take a look.

## **Orange Netting update!**

**I will report back this evening.**

The DCC website is very useful for reporting highway problems and the reports go straight to the contractor. [Report a problem - Roads and transport](#)

**Alternatively, the highway contact number is 0345 155 1004**

If it's a river flooding the environment agency can be contacted on 0345 988 1188
